

Diffusion Models Are Statistically Optimal Scoped CPU Audit

One-sentence tagline that explains the work in plain English.

Paper & Code

Author One · Author Two · Author Three✉

Lab / Department · Institution · City, Country

1 Motivation

We audit five live theorem and assumption claims from a pinned arXiv source. The audit preserves the exact displayed rates and explicitly separates them from full diffusion training. Use **accent color** for terms you want the eye to land on; light pills for short phrases.

- Scoped source audit: pain point 1.
- Scoped source audit: pain point 2.

Q: Can intrinsic subspace dimension replace an ambient-dimensional exponent?

2 Key Insight

The source claims intrinsic-dimensional rates under a union-of-subspaces model. Our evidence checks formulas, assumptions, and controls on CPU.

Scoped source audit: caption explaining (a) / (b) / (c) panels in one line each.

3 Method Step 1

Scoped source audit: how step 1 works in 1-2 sentences.

CORE EQUATION

$$f(x) = \text{Scoped source audit}$$

Scoped source audit: one-sentence interpretation of the equation.

4 Method Step 2 ★ KEY

Scoped source audit: how step 2 works.

STEP 2 EQUATION

$$g(x) = \text{Scoped source audit}$$

Theorem. Scoped source audit: one-sentence

6 Main Result ★ Headline

Scoped source audit: setup line — dataset, # samples, baselines.

Left: Scoped source audit. **Right:** Scoped source audit.

7 Benchmark Table

Scoped source audit: setup line — samples, seeds, metric description.

Method	Metric A ↑	Metric B ↑	Cost ↓
Reference	X.XX	X.XX	X.XX
Baseline 1	X.XX	X.XX	X.XX
Baseline 2	X.XX	X.XX	X.XX
Ours	X.XX	X.XX	X.XX

Scoped source audit: one-sentence interpretation of the table.

8 Ablation / Robustness

Scoped source audit: 1-2 sentences on what's varied and what's measured.

- Setting A** — Scoped source audit.
- Setting B** — Scoped source audit.
- Setting C** — Scoped source audit.

Scoped source audit: bottom-line takeaway from the ablation study.

9 Takeaways ★

- Idea.** Scoped source audit: 1-line.
- Method.** Scoped source audit: 1-line.
- Result.** Scoped source audit: 1-line.
- Practical.** Scoped source audit: 1-line.

In one sentence: Scoped source audit — the elevator pitch a passer-by remembers.
